Demographic Indicator: Estate, Vancouver Island

Varietals: Pinot Noir 777 Côté d'Or 52%
Chardonnay 76 Saône-et-Loire 48%

Harvest: September 25, 2021, 19 brix, 3.0 pH

Pruning VSP (Vertical Shoot Position): Spur

Soil: 40 Knots Salish Sea: Glacier deposit, sandy gravelly marine over sandy gravelly morainal leading to Schist clay at 12-16' depths. Elevation sloping from 31m to 11m above sea level

Farming: Traditional Sustainable Farming methods. No herbicides. No pesticides. Limited irrigation is required in record high-temperature conditions in June.

Weather: 2021 saw the hottest days of history in Comox hitting 38°C on June 27th, but over 40°C in the vineyard with many other sweltering days from June through August. The average sunlight was between 14 and 16 hours during the growing period with an average monthly precipitation of 3.6cm.

Cellar Notes: Traditional Method. Primary fermentation. in stainless steel (EC1118) to dry. Held on lees through cold stabilization. Racked and filtered to secondary fermentation in bottle. Tiraged until June 2023 minimum. Riddled disgorged, X-Brut. 2.5 bar pressure.

Tasting Notes: Sourdough, lemon and green apple on the nose, with mouse like bubbles, meyers lemon, quince and lychee on the palate.
